

## ☑ SULFONIL DS

Chemical name : Disodium Luareth Sulfosuccinate

### Features

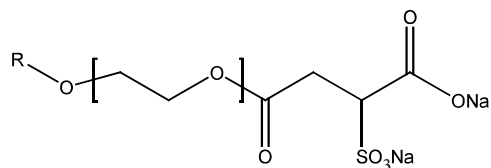

SULFONIL DS is a very mild anionic surfactant. The balanced surfactant properties and good dermatological compatibility make the product suitable for use as a basic surfactant in mild cleaning preparations, e.g. for baby care & personal hygiene.

### Applications

Shampoos (especially baby, without allergy and anti-dandruff shampoos), body detergents, liquid soaps, bath detergents

### Storage and stability

In sealed original containers and at temperatures between 20 and 30 °C SULFONIL DS remain stable for at least 6 months.

## Physicochemical properties

Appearance (25 °C)	Clear; yellow liquid
Active matter (Mw 550 gr /mol)	32-35 %
pH (5 %)	5.5-6.5
Solid content	37-40 %
